Report on Review of Consolidated Interim Condensed Financial Information

To the Shareholders of Public Joint Stock Company Gazprom

Introduction

We have reviewed the accompanying consolidated interim condensed balance sheet of Public Joint Stock Company Gazprom ("PJSC Gazprom") and its subsidiaries ("the Group") as of 30 June 2024 and the related consolidated interim condensed statement of comprehensive income for the three and six months ended 30 June 2024, consolidated interim condensed statements of cash flows and changes in equity for the six months ended 30 June 2024, and notes to the consolidated interim condensed financial information.

Management of the Group is responsible for the preparation and presentation of this consolidated interim condensed financial information in accordance with International Accounting Standard 34, Interim Financial Reporting. Our responsibility is to express a conclusion on this consolidated interim condensed financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim condensed financial information is not prepared, in all material respects, in accordance with International Accounting Standard 34, Interim Financial Reporting.

1 General Information

Public Joint Stock Company Gazprom (PJSC Gazprom) and its subsidiaries (the "Group" or "Gazprom Group") operate one of the largest gas pipeline systems in the world, and provide for the major part of natural gas production and its transportation by high-pressure pipelines in the Russian Federation. The Group is engaged in oil production, oil refining, electric and heat energy generation, media business. The Russian Federation is the ultimate controlling party and has a controlling interest (including both direct and indirect ownership) of over 50 % in PJSC Gazprom.

The Group is involved in the following activities:

- exploration and production of gas;
- transportation of gas;
- sales of gas within the Russian Federation and abroad;
- gas storage;
- production and sales of crude oil and gas condensate;
- processing of oil, gas condensate and other hydrocarbons and sales of refined products;
- electric and heat energy generation and sales;
- · media business.

The Group's activity is subject to seasonal fluctuations with peak demand for gas in the first and fourth quarters of the year.

2 Economic Environment in the Russian Federation

The economy of the Russian Federation displays certain characteristics of an emerging market. Tax, currency and customs legislation of the Russian Federation is subject to varying interpretations and causes additional challenges for companies operating in the Russian Federation.

The political and economic instability, the situation in Ukraine, the current situation with sanctions, uncertainty and volatility of financial and trade markets and other risks have had and may continue to have effects on the Russian economy.

The official Russian Ruble ("RUB") to US Dollar ("USD") exchange rate as determined by the Central Bank of the Russian Federation was as follows:

- as of 30 June 2024 85.7480 (as of 30 June 2023 87.0341);
- as of 31 December 2023 89.6883 (as of 31 December 2022 70.3375).

The official RUB to Euro ("EUR") exchange rate as determined by the Central Bank of the Russian Federation was as follows:

- as of 30 June 2024 92.4184 (as of 30 June 2023 95.1052);
- as of 31 December 2023 99.1919 (as of 31 December 2022 75.6553).

The future economic development of the Russian Federation is dependent upon external factors and internal measures undertaken by the Government of the Russian Federation to sustain growth and to change the tax, legal and regulatory frameworks. The management believes it is taking all necessary measures to support the sustainability and development of the Group's business in the current business and economic environment. The future economic situation and the regulatory environment and their impact on the Group's operations may differ from management's current expectations.

In 2022-2024 the United States of America, the European Union (the "EU") and some other countries imposed additional sanctions against the Russian Federation (see Note 25). These circumstances have led to the volatility of financial markets, as well as significantly increased the level of economic uncertainty in the conditions of activity in the Russian Federation. At the moment, the Group's management is analyzing the current economic conditions and their possible impact on the Group's activities. At the time of signing this consolidated interim condensed financial information, according to the estimates of the Group's management, the described circumstances do not call into question the continuity of the Group's activities.

3 Basis of Presentation

This consolidated interim condensed financial information is prepared in accordance with the requirements of IAS 34 Interim Financial Reporting. The consolidated interim condensed financial information should be read in conjunction with the consolidated financial statements for the year ended 31 December 2023 prepared in accordance with IFRS® Accounting Standards.

4 Material Accounting Policy Information, Critical Judgements and Estimates in Its Application

The material accounting policy information of the Group, the critical judgements and estimates in its application are consistent with those disclosed in the consolidated financial statements for the year ended 31 December 2023.

Profit tax for the interim periods is accrued using a tax rate that would be applicable to expected profit for the year.

Application of Amendments to Standards

The following amendments to current standards became effective beginning on or after 1 January 2024:

- the amendments to IAS 1 Presentation of Financial Statements (issued in January 2020 and effective for annual reporting periods beginning on or after 1 January 2024). The amendments clarify the criteria for classifying liabilities as current or non-current;
- the amendments to IAS 1 Presentation of Financial Statements (issued in October 2022 and effective for annual reporting periods beginning on or after 1 January 2024). The amendments clarify the criteria for classifying liabilities with covenants as current or non-current and contain requirements for related financial statements disclosures;
- the amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures (issued in May 2023 and effective for annual reporting periods beginning on or after 1 January 2024). The amendments contain additional requirements for disclosures about supplier finance arrangements;
- the amendments to IFRS 16 Leases (issued in September 2022 and effective for annual reporting periods beginning on or after 1 January 2024). The amendments clarify the procedure for the subsequent valuation of assets and liabilities for sale and leaseback transactions.

The Group reviewed these amendments to standards while preparing the consolidated interim condensed financial information. The amendments to standards have had no significant impact on the Group's consolidated interim condensed financial information.

The Standard and Amendments to Existing Standards That Are Not Yet Effective and Have Not Been Early Adopted by the Group

New standard and the amendments to standards are mandatory for the annual periods beginning on or after 1 January 2025. In particular, the Group has not early adopted the following standard and amendments to standards:

- the amendments to IAS 21 The Effects of Changes in Foreign Exchange Rates (issued in August 2023 and effective for annual reporting periods beginning on or after 1 January 2025). The amendments introduce the concept of an exchangeable currency and establish the procedure for determining the exchange rate to use if the currency cannot be exchanged into another currency, and also contain requirements for related financial statements disclosures;
- the amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures (issued in May 2024 and effective for annual reporting periods beginning on or after 1 January 2026). The amendments clarify the procedure for classifying financial assets and derecognising financial liabilities settled using an electronic payment system, and also contain disclosure requirements relating to investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features;
- IFRS 18 Presentation and Disclosure in Financial Statements (issued in April 2024 and effective for annual reporting periods beginning on or after 1 January 2027) replaces IAS 1 Presentation of Financial Statements and establishes general requirements for the presentation and disclosures in financial statements.

4 Material Accounting Policy Information, Critical Judgements and Estimates in Its Application (continued)

The Group is currently assessing the impact of the standard and amendments to standards on its financial position and performance.

5 Segment Information

The Board of Directors, the Chairman of the Management Committee and the Management Committee of PJSC Gazprom (the "Governing bodies") make key decisions managing the Group's activity, assess operating results and allocate resources using different internal financial information.

Due to the acquisition of the control over JSC Gazprom-Media Holding in December 2023, the management of the Group allocated the results of JSC Gazprom-Media Holding and its subsidiaries into a separate reportable segment – "Media business". As a result, the following reportable segments were identified:

- Gas business a type of the Group's business mainly related to the exploration, production, processing, storage, transportation, distribution and sale of gas, gas and gas condensate processing products in the Russian Federation and abroad, and activities that enable these business processes;
- Oil business a type of the Group's business mainly related to the exploration, production, refining, storage, transportation and sale of oil and refined oil products in the Russian Federation and abroad;
- Electric power business a type of the Group's business mainly related to electricity and heat generation and sale in the Russian Federation and abroad;
- Media business a type of the Group's business mainly related to television and radio broadcasting, advertising, publishing, film production and content distribution primarily in the Russian Federation.

The Governing bodies of the Group assess the performance, assets and liabilities of the reportable segments on the basis of the data generated following measurement principles that correspond to the principles used to measure indicators in the consolidated interim condensed financial information. Revenue from inter-segment sales is calculated based on market prices.

Sales and profit (loss) of the reportable segments, as well as depreciation and share in profit (loss) of associates and joint ventures are presented below. Finance income and expenses, profit tax expenses are considered by the Governing bodies of the Group for the Group as a whole without distribution by reportable segments.

Other bonds	34,393	40,905
Promissory notes	8,173	7,881
Total long-term borrowings, promissory notes	5,941,429	6,287,466
Less current portion of long-term borrowings	(862,730)	(925,349)
	5,078,699	5,362,117

The maturity analysis of long-term borrowings and promissory notes is presented in the table below.

Maturity of long-term borrowings, promissory notes	30 June 2024	31 December 2023
between one and two years	952,741	992,598
between two and five years	2,338,333	2,540,109
after five years	1,787,625	1,829,410
	5,078,699	5,362,117

Long-term liabilities include fixed interest rate borrowings with the carrying value of RUB 2,554,216 million and RUB 2,945,351 million and the fair value of RUB 2,375,072 million and RUB 2,863,282 million as of 30 June 2024 and 31 December 2023, respectively.

13 Long-Term Borrowings, Promissory Notes (continued)

All other long-term borrowings have variable interest rates mainly linked to EURIBOR and the key rate of the Bank of Russia. Their carrying value is RUB 3,387,213 million and RUB 3,342,115 million and the fair value is RUB 3,470,771 million and RUB 3,602,384 million as of 30 June 2024 and 31 December 2023, respectively.

As of 30 June 2024 and 31 December 2023 according to the agreements signed within the framework of financing the Nord Stream 2 project, 100 % of shares of Nord Stream 2 AG were pledged until a full settlement of the secured obligations.

As of 30 June 2024 and 31 December 2023 according to the agreements signed in December 2019 within the framework of financing the construction of the Amur gas processing plant, interest in the charter capital of LLC Gazprom pererabotka Blagoveshchensk (a subsidiary) was pledged until a full settlement of the secured obligations. In addition, obligations to agent banks are secured by the assets, which include cash, property, plant and equipment (including assets under construction) and advances paid for assets under construction. As of 30 June 2024 and 31 December 2023 the secured obligations to agent banks amounted to RUB 707,432 million and RUB 777,672 million, respectively.

The Group has no subordinated borrowings and no debt obligations that may be converted into shares of the Group (see Note 20).

14 Profit Tax

Profit tax is recognised based on the estimated average annual effective profit tax rate applied to the profit before profit tax for the six months ended 30 June 2024. Differences between the recognition criteria of assets and liabilities reflected in the consolidated interim condensed financial information and for the purposes of Russian statutory taxation give rise to certain temporary differences. The tax effect of the movement in these temporary differences is reported at the rates set forth by the applicable legislation of the Russian Federation. Certain entities of the Gazprom Group have preferential tax treatment, which allows them to pay profit tax at a reduced rate.

Deferred tax assets and liabilities recognised in the consolidated interim condensed financial information are attributable to the following assets and liabilities:

	Deferred tax	Deferred tax	
	assets	liabilities	Net
As of 30 June 2024			
Property, plant and equipment	295,974	(1,668,620)	(1,372,646)
Right-of-use assets	-	(80,269)	(80,269)
Financial assets	18,150	(5,477)	12,673
Accounts receivable	259,089	(2,152)	256,937
Inventories	39,000	(51,812)	(12,812)
Tax losses carry forward	152,703	-	152,703

Netting	(831,109)	831,109	
Total deferred tax assets (liabilities)	481,025	(1,294,799)	(813,774)

Due to changes in the law from 1 January 2022 foreign exchange gains are not taxable until assets and liabilities are paid. Due to changes in the law from 1 January 2023 foreign exchange losses are not deductible until assets and liabilities are paid.

14 Profit Tax (continued)

Other temporary differences related to deferred tax assets include amounts of RUB 395,294 million and RUB 385,153 million of foreign exchange losses non-deductible until assets and liabilities are paid as of 30 June 2024 and as of 31 December 2023, respectively.

Other temporary differences related to deferred tax liabilities include amounts of RUB 433,445 million and RUB 407,654 million of foreign exchange gains non-taxable until assets and liabilities are paid as of 30 June 2024 and as of 31 December 2023, respectively.

The taxable effect of taxable and deductible temporary differences for the six months ended 30 June 2024 and 30 June 2023 is presented in the table below:

		Temporary			Temporary

15 Equity

Share Capital

The share capital authorised, issued and paid totals RUB 325,194 million as of 30 June 2024 and 31 December 2023 and consists of 23,674 million ordinary shares, each with a par value of 5 Russian Rubles.

Treasury Shares

As of 30 June 2024 and 31 December 2023 subsidiaries of PJSC Gazprom held 29 million PJSC Gazprom's ordinary shares, which are accounted for as treasury shares.

The management of the Group controls the voting rights of treasury shares.

Number of Shares Outstanding

The number of PJSC Gazprom shares outstanding (the number of issued ordinary shares less treasury shares) amounted to 23,645 million shares as of 30 June 2024 and 31 December 2023.

Perpetual Notes

Information about perpetual notes is disclosed in Note 16.

16 Perpetual Notes

Perpetual notes of the Group are represented by:

- issued in 2020 in the international market perpetual callable loan participation notes with a par value of USD 1,400 million and EUR 1,000 million, which were partly replaced by issued in 2023 Russian perpetual callable notes as a replacement for foreign currency perpetual loan participation notes the rights to which were recorded in Russian depositories for the total amount of USD 1,069 million and EUR 716 million with conditions similar to the replaced foreign currency perpetual loan participation notes, except for the change of the settlement currency to Russian rubles;
- issued in 2021-2023 in the Russian market perpetual callable notes with a par value of RUB 504,200 million.

Under the terms of the foreign currency perpetual loan participation notes, the Group, acting in its sole discretion, may refuse to redeem the notes and may, at any time and on any number of occasions, decide to postpone interest payments. Conditions which give rise to an interest payment liability are under the control of PJSC Gazprom. In particular, an interest payment liability arises when PJSC Gazprom decides to pay or declare dividends. Interest of the foreign currency perpetual loan participation notes is cumulative.

Under the terms of the ruble perpetual notes, the Group may, on a unilateral basis, decide to refuse to pay interest. Interest of the ruble perpetual notes is not cumulative. In case the Group decides to refuse to pay interest, Resolution of the Government of the Russian Federation No. 2337 dated 29 December 2020 provides for the reimbursement for the investors' lost income.

Transactions related to perpetual notes for the six months ended 30 June 2024 and 30 June 2023 are presented below.

	Ruble perpetual notes	Foreign currency perpetual loan participation notes ¹	Retained earnings and other reserves	Total
Balance as of 31 December 2023	504,200	228,698	(77,340)	655,558

	Profit (loss) for the period attributable to the ordinary shareholders of PJSC Gazprom	381,274	(23,674)	1,021,256	283,500
	Weighted average number of ordinary shares outstanding (millions of shares)	23,645	23,645	23,645	23,645
	Basic and diluted earnings (loss) per share attributable to the owners of PJSC Gazprom				
	(in Russian Rubles)	16.13	(1.00)	43.19	11.99

The Group has no dilutive financial instruments.

21 Provisions

	30 June	31 December
	2024	2023
Provision for decommissioning and site restoration costs	428,561	258,081
Provision for post-employment benefits	260,300	304,949
Other	35,464	6,234
Total provisions	724,325	569,264

The Group applies pension and other post-employment benefits system, which is recorded as defined benefit plan in the consolidated interim condensed financial information under IAS 19 Employee Benefits. Pension benefits are provided to the majority of the Group's employees. Pension benefits include non-governmental pension benefits provided by JSC NPF GAZFOND, and lump-sum payments provided by the Group upon retirement.

The net pension plan assets related to benefits provided through JSC NPF GAZFOND in the amount of RUB 84,944 million and RUB 57,091 million as of 30 June 2024 and 31 December 2023, respectively, are included within other non-current assets in the consolidated interim condensed balance sheet (see Note 12).

In accordance with IAS 19 Employee Benefits, pension plan assets are recorded at estimated fair value and are subject to certain limitations. As of 30 June 2024 and 31 December 2023 management estimates the fair value of these assets in the amount of RUB 439,220 million and RUB 475,844 million, respectively. The pension plan assets comprise shares of various companies, including shares of PJSC Gazprom, an equity stake in Gazprombank (Joint Stock Company), corporate, state and municipal bonds, investments in mutual funds, deposits and other assets held by JSC NPF GAZFOND.

Net post-employment benefits assets or liabilities recorded in the consolidated interim condensed balance sheet are presented below.

	30 June	2024	31 Decemb	er 2023
	Pension plan provided through JSC NPF GAZFOND	Other post- employment benefits	Pension plan provided through JSC NPF GAZFOND	Other post- employment benefits
Present value of obligations	(354,276)	(260,300)	(418,753)	(304,949)
Fair value of plan assets Unrecognised value of plan assets (effect	475,192	-	475,844	-
of the pension plan asset ceiling)	(35,972)		-	_
Total net assets (liabilities)	84,944	(260,300)	57,091	(304,949)

21 Provisions (continued)

Expenses for provision for post-employment benefits recognised in profit or loss are presented below.

	Three months Six months ended 30 June ended 30 Jun			
	2024	2023	2024	2023
Current service cost	6,022	6,414	12,044	12,829
Net interest expense	7,042	7,295	14,244	14,585
Total included in profit or loss	13,064	13,709	26,288	27,414

The principal assumptions used for the measurement of provision for post-employment benefits for the three and six months ended 30 June 2024 were the same as those applied for the year ended 31 December 2023 with the exception of the discount rate determined by reference to market yields on government securities. The increase in the discount rate from 13.3 % to 15.1 % resulted in recognition of an actuarial gain in the amount of RUB 83,747 million in other comprehensive income for the three months ended 30 June 2024. The increase in the discount rate from 11.9 % to 15.1 % resulted in recognition of an actuarial gain in the amount of RUB 146,059 million in other comprehensive income for the six months ended 30 June 2024. The increase in the discount rate from 10.8 % to 11.1 % resulted in recognition of an actuarial gain in the amount of RUB 16,542 million in other comprehensive income for the three months ended 30 June 2023. The increase in the discount rate from 10.3 % to 11.1 % resulted in recognition of an actuarial gain in the amount of RUB 42,546 million in other comprehensive income for the six months ended 30 June 2023.

Remeasurement of provision for post-employment benefits recognised in other comprehensive income is presented below.

	Three months ended 30 June		Six mont ended 30 J	
_	2024	2023	2024	2023
Actuarial gain	83,747	16,542	146,059	42,546
(Expense) income on plan assets excluding amounts included in net interest expense	(18,922)	6,835	(31,886)	9,408
Change in the effect of the pension plan asset ceiling	(35,972)	-	(35,972)	-
Translation differences	<u>95</u>	(169)	<u>85</u>	(286)
Total	28,948	23,208	78,286	51,668

22 Fair Value of Financial Instruments

The fair value of financial assets and liabilities is determined as follows:

a) Financial instruments included in Level 1

The fair value of financial instruments traded in active markets is based on market quotes at the date nearest to the reporting date.

b) Financial instruments included in Level 2

The fair value of financial instruments that are not traded in active markets is determined according to various valuation techniques, primarily based on the market or income approach, particularly the discounted cash flows valuation method. These valuation techniques maximise use at most the observable inputs where they are available and rely as little as possible on the Group's specific assumptions. If all significant inputs required to measure a financial instrument at fair value are based on observable data, such an instrument is included in Level 2.

c) Financial instruments included in Level 3

If one or more of the significant inputs used to measure the fair value of an instrument are not based on observable data, such an instrument is included in Level 3.

The fair value of long-term accounts receivable is classified as Level 3 (see Note 11), long-term borrowings – Level 2 (see Note 13).

As of 30 June 2024 and 31 December 2023 long-term financial assets measured at fair value with changes recognised through other comprehensive income include shares of PJSC NOVATEK in the amount of RUB 325,955 million and RUB 444,374 million, respectively, and are classified as Level 1 and debt securities that are classified as Level 2.

23 Acquisition of a Subsidiary

In March 2024 the Group acquired 27.50 % of interest in LLC Sakhalin Energy for RUB 94,800 million. The payment was settled in cash. The transaction was made in accordance with Decree of the Government of the Russian Federation No. 701-p dated 23 March 2024. Prior to the acquisition of the above interest, the investment in LLC Sakhalin Energy was accounted for as an investment in the associate using the equity method. As a result of this transaction, the Group's interest in the charter capital of LLC Sakhalin Energy increased to 77.50 % and the Group obtained control over the activities of LLC Sakhalin Energy.

The principal activities of LLC Sakhalin Energy are crude oil and associated gas production, as well as liquefied natural gas production under the terms and conditions of the Production Sharing Agreement with the Russian Federation. LLC Sakhalin Energy operates in the Russian Federation.

As a result of the transaction, gain from a bargain purchase was recognised in the provisional amount of RUB 167,386 million in the line "Other" of operating expenses of the consolidated interim condensed statement of comprehensive income.

The fair value of the consideration transferred at the acquisition date is presented below.

Cost of acquisition	94,800
Cost of share in capital of LLC Sakhalin Energy at the acquisition date	443,798
Pre-existing relationships	(99,803)
Fair value of the consideration transferred	438,795

In accordance with IFRS 3 Business Combinations, the Group recognised the acquired assets and liabilities based upon their provisional fair value. The final results of the fair value measurement should be recognised in the consolidated financial statements within twelve months from the acquisition date. All changes in fair value will be recorded retrospectively from the acquisition date.

The provisional fair value of the acquired assets and liabilities is presented below.

23 Acquisition of a Subsidiary (continued)

	Provisional fair value	
Current assets		
Cash and cash equivalents	597,519	
Accounts receivable and prepayments	45,323	
Inventories	26,989	
Other current assets	4,457	
	<u>674,288</u>	
Non-current assets		
Property, plant and equipment	480,333	
Right-of-use assets	37,281	
Investments in associates and joint ventures	5	
Long-term accounts receivable and prepayments	5,295	
Deferred tax assets	107,235	
Other non-current assets	3,392	
	633,541	
Total assets	<u>1,307,829</u>	
Current liabilities		
Accounts payable, provisions and other liabilities	86,667	
Current profit tax payable	2,917	
Taxes other than on profit and fees payable	1,348	
	90,932	
Non-current liabilities		
Provisions	182,161	
Deferred tax liabilities	157,925	
Long-term lease liabilities	65,623

The provisional result of the acquisition of LLC Sakhalin Energy is presented below		
Fair value of the consideration transferred	438,795	
Fair value of the net assets purchased	606,181	
Gain from the bargain purchase	167,386	
S 1	-)	

If the acquisition had occurred on 1 January 2024, the Group's revenue from sales for the six months ended 30 June 2024 would have increased by RUB 188,945 million and the Group's profit before tax for the six months ended 30 June 2024 would have increased by RUB 119,735 million.

The fair value of the accounts receivable resulting from the transaction is RUB 34,972 million as of the acquisition date. The gross accounts receivable at the acquisition date is RUB 42,979 million. The best estimate of cash flows that are not expected to be recovered is RUB 8,007 million as of the acquisition date.

24 Related Parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making operational and financial decisions as defined by IAS 24 Related Party Disclosures. Related parties may enter into transactions, which unrelated parties would not, and transactions between related parties may not be effected on the same terms, conditions and amounts as transactions between unrelated parties.

The nature of relationships with those related parties with whom the Group entered into significant transactions or had significant balances outstanding is detailed below.

24 Related Parties (continued)

Government (the Russian Federation)

The Russian Federation is the ultimate controlling party of PJSC Gazprom and has a controlling interest (including both direct and indirect ownership) of over 50 % in PJSC Gazprom.

As of 30 June 2024 the Government directly owns 38.373 % of PJSC Gazprom's issued shares. JSC ROSNEFTEGAZ and JSC Rosgazifikatsiya controlled by the Government own 11.859 % of PJSC Gazprom's issued shares.

The Government does not prepare consolidated financial statements for public use. The Governmental economic and social policies affect the Group's financial position, performance and cash flows.

As a condition of privatisation in 1992, the Government of the Russian Federation imposed an obligation on the Group to provide an uninterrupted supply of gas to customers in the Russian Federation at government-controlled prices.

Government-Related Entities

The Group applied an exception from IAS 24 Related Party Disclosures permitting not to disclose all transactions with government-related entities due to the fact that the Russian Federation, as the ultimate controlling party, has a controlling interest (including both direct and indirect ownership) of over 50 % in PJSC Gazprom.

In the normal course of business the Group enters into transactions with other entities under the Government control.

As of 30 June 2024 prices of natural gas and gas transportation, electricity tariffs in the Russian Federation are regulated by the FAS.

Bank borrowings are provided on the basis of market interest rates. As of 30 June 2024 and 31 December 2023 borrowings in banks influenced by the Government accounted for about 25 % (see Note 13).

Taxes are accrued and paid in accordance with the applicable current legislation. Balances and transactions are presented in Notes 12, 17 and 18.

As of 30 June 2024 and 31 December 2023 balances of cash and cash equivalents on accounts in banks influenced by the Government accounted for about 9 % and 35 %, respectively (see Note 6).

The share of the Group's operations with state-controlled entities in revenue from the sale of electric and heat energy amounted to about 33 % and 37 % for the three and six months ended 30 June 2024, respectively, and about 32 % and 38 % for the three and six months ended 30 June 2023, respectively (see Note 17).

The share of the Group's operations with state-controlled entities in expenses in the transit of oil and refined products amounted to about 46 % and 45 % for the three and six months ended 30 June 2024, respectively, and about 50 % and 48 % for the three and six months ended 30 June 2023, respectively (see Note 18).

The other transactions and balances are insignificant individually and in aggregate and mainly performed using market or regulated prices.

Transactions with JSC FSC

Some of the transactions on the wholesale electricity and capacity market are conducted through commission agreements with JSC FSC. The current financial settling system of JSC FSC does not provide the ultimate counterparties with automatically generated information about transactions and outstanding balances with the participants of the wholesale electricity and capacity market.

Revenue from the sale of electric and heat energy through JSC FSC accounted for about 38 % and 34 % of total revenue from sale of electric and heat energy for the three and six months ended 30 June 2024, respectively, and about 36 % and 32 % for the three and six months ended 30 June 2023, respectively.

Compensation for Key Management Personnel

Key management personnel (the members of the Board of Directors and the Management Committee of PJSC Gazprom) receive short-term compensation, including salary, bonuses and remuneration for serving on the management bodies of the Group's entities.

24 Related Parties (continued)

The members of the Board of Directors, who are government officials, do not receive compensation from the Group.

The compensation of the members of the Board of Directors is approved by the annual general meetings of shareholders of the Group's entities. The compensation of key management personnel (other than compensation of the members of the Board of Directors) is determined by the terms of the employment contracts. Short-term compensation of key management personnel also includes benefits related to healthcare.

According to the Russian legislation, the Group makes contributions to the Pension Fund of the Russian Federation for all of its employees including key management personnel.

Key management personnel are also entitled to long-term post-employment benefits. These benefits include non-governmental pension benefits provided by JSC NPF GAZFOND and lump-sum payments provided by the Group's entities upon retirement (see Note 21).

The Group also provides key management personnel with medical insurance and liability insurance.

Associates and Joint Ventures

For the three and six months ended 30 June 2024 and 30 June 2023 and as of 30 June 2024 and 31 December 2023 the Group's significant transactions and balances with associates and joint ventures are presented below.

	Three months ended 30 June		Six months	
	ended 30 2024	9 June 2023	ended 3 2024	0 June 2023
-	Incon		Incor	
Revenue from gas sales	meome		meome	
Joint ventures	9,697	15,924	21,480	46,811
Revenue from crude oil, gas condensate and refined products sales				
Joint ventures	10,767	6,265	20,852	14,525
Revenue from sales of field operator services and other services				
Joint ventures	9,991	4,891	22,334	11,925
Interest income				
Associates	40,941	5,322	58,489	9,059
	Expenses		Expenses	
Purchased gas				
Joint ventures	14,251	15,753	23,228	23,639

Interest expense Associates	21,912	6,164	38,250	12,086
Associates	21,912	0,104	30,230	12,000

Gas is sold to and purchased from the Group's associates and joint ventures in the Russian Federation mainly at the rates established by the FAS. Gas is sold and purchased outside the Russian Federation generally on a long-term basis at prices based on world prices of oil products.

Crude oil is sold to and purchased from the Group's associates and joint ventures in the ordinary course of business at prices not significantly different from average market prices.

Allowance for expected credit losses for accounts receivable due from associates and joint ventures were RUB 945,936 million and RUB 958,825 million as of 30 June 2024 and 31 December 2023, respectively.

Borrowings from Gazprombank (Joint Stock Company) were obtained on terms not substantially different from those on financial instruments with similar characteristics and equally exposed to influence of changes in economic or other factors.

Under the loan facility agreements concluded in 2019–2024 the Group has commitments to provide loans to the Group's associate and joint ventures to repay its loan liabilities and borrowings towards in case of late payment. As of 30 June 2024 and 31 December 2023 the limit of loan facilities according to the concluded agreements amounted to RUB 384,541 million and RUB 199,602 million, respectively. The loan facilities are mainly valid until 31 December 2027 and 29 June 2039. The Group did not provide loans during the term of the loan facility agreements. The loan commitments of the Group are limited by the loan liabilities and borrowings of the associate and joint ventures.

Information on investments in associates and joint ventures is disclosed in Note 10.

Information on transactions performed by the Group with JSC NPF GAZFOND is disclosed in Note 21.

Information on financial guarantees issued by the Group for associates and joint ventures is disclosed in Note 25.

The Group's ownership interests in some associates and joint ventures were pledged as collateral under loan agreements of associates and joint ventures.

25 Commitments and Contingencies

Taxation

Russian tax, currency and customs legislation is subject to varying interpretations and frequent changes. Tax authorities may be taking a more assertive position in their interpretation of the legislation and in conducting audits of tax payments. Management believes that its interpretation of the relevant legislation as of 30 June 2024 is appropriate and the Group's position in terms of tax, currency and customs legislation will remain stable.

Legal Proceedings

The Group is involved in a number of legal and arbitration proceedings concerning terms and conditions of long-term natural gas supply contracts and long-term gas transportation capacity booking agreements, and concerning their termination. As at 30 June 2024 and 31 December 2023 a provision for these proceedings was recognised. The Group continues to assess the effect of these legal and arbitration proceedings on its operations, and at the moment the Group's management does not expect that they can have a material adverse effect on the Group's financial position.

The Group is also a party to certain other legal and arbitration proceedings arising in the ordinary course of business and subject to various regulations of environmental protection issued by various governmental authorities regarding handling, storage and disposal of certain products. The Group continues to assess the effect of these legal and arbitration proceedings and claims on its operations, and at the moment the Group's management does not expect that they can have a material adverse effect on the Group's financial position.

On 10 May 2022 the Swiss court rendered a decision to grant a provisional bankruptcy moratorium to Nord Stream 2 AG with Transliq AG (Switzerland) being appointed as an administrative receiver. Later, the provisional bankruptcy moratorium was extended several times (until 10 January 2023). On 27 December 2022 the Swiss court rendered a decision to introduce a definitive moratorium for six months from the expiration date of the provisional moratorium. Later, the final moratorium was extended several times (until 10 January 2025).

Sanctions

Starting from 2014 the EU, the United States (the "U.S.") and some other countries introduced, for the first time, a series of sanctions against the Russian Federation and some Russian legal entities. Starting from February 2022, western countries significantly expanded existing sanctions and started to impose new packages of sanctions against Russian entities and various sectors of the Russian economy.

Some of these sanctions are aimed directly against PJSC Gazprom, PJSC Gazprom Neft and their subsidiaries and other companies, including Gazprombank (Joint Stock Company), and some of them include general restrictions of economic activity in certain sectors of the Russian Federation economy.

The U.S. sanctions prohibit any U.S. citizen and legal entities incorporated in the U.S. (including their foreign branches) and any person or entity in the U.S. or related to the territory of the U.S. from:

1) transactions in new debt and new equity of PJSC Gazprom issued after 26 March 2022 of longer than 14 days maturity. The respective restrictions also apply to entities owned 50 % or more, directly or indirectly, by PJSC Gazprom. Any transactions that have the purpose of evading those restrictions are also prohibited. Apart from PJSC Gazprom, those restrictions were imposed on PJSC Gazprom Neft, a subsidiary of the Gazprom Group, and Gazprombank (Joint Stock Company), an associate of the Gazprom Group. The ability of PJSC Gazprom and the Gazprom Group's entities to raise debt financing from U.S. persons is thus restricted.

2) providing, exporting, or reexporting, directly or indirectly, goods, services (except for financial services), or technology in support of potential exploration and production of oil in deep water, Arctic offshore, or shale formations in the Russian Federation, inland or in territorial waters claimed by the Russian Federation with participation of Russian companies, including PJSC Gazprom and PJSC Gazprom Neft. Since 7 August 2015 the restriction has included the Yuzhno-Kirinskoye field located in the Sea of Okhotsk. According to the changes of 31 October 2017 the scope of the stated restriction was extended for projects that meet three criteria at the same time:

25 Commitments and Contingencies (continued)

- the start date of projects after 29 January 2018;
- projects relate to oil production around the world;
- Russian companies included in the Sectoral Sanctions Identifications List, including PJSC Gazprom and PJSC Gazprom Neft and their subsidiaries, own a share of 33 % and more in such project or control the majority of voting rights.

On 23 February 2022 the U.S. imposed blocking sanctions on Nord Stream 2 AG. The blocking sanctions mean that assets located in the U.S. are frozen (including when they are transferred to third parties) and U.S. persons are prohibited from dealings with such sanctioned persons. In addition, there is a risk of secondary sanctions being imposed on any foreign person for significant transactions and dealings with a person subject to the U.S. blocking sanctions.

On 8 March 2022 the U.S. President signed Executive Order No. 14066, which prohibited the importation into the U.S. from the Russian Federation of crude oil and refined oil products, liquefied natural gas, coal and coal products, and prohibited new investment in the energy sector in the Russian Federation by U.S. persons and any approval, financing, facilitation or guarantee by U.S. persons of the respective prohibited transactions by foreign persons.

The U.S. Ending Importation of Russian Oil Act became effective on 8 April 2022 and prohibited the importation into the U.S. of Russian energy products, including oil and gas, in a manner consistent with actions issued under the U.S. President's Executive Order No. 14066 of 8 March 2022. However, the U.S. President is authorised to terminate that prohibition on importation of energy products from the Russian Federation in certain circumstances.

On 22 November 2022 the U.S. Department of the Treasury's Office of Foreign Assets Control published a determination that imposed from 5 December 2022 the prohibition on the following services related to the maritime transport of crude oil of Russian origin sold at a price above the certain price cap: trading brokering, financing, shipping, insurance, flagging and customs brokering. On 5 December 2022 the U.S. Department of the Treasury's Office of Foreign Assets Control published a determination that set a price cap for Russian oil at USD 60 per barrel from 5 December 2022.

On 3 February 2023 the U.S. Department of the Treasury's Office of Foreign Assets Control published a determination pursuant to the U.S. President's Executive Order of 6 April 2022 No. 14071 ("Executive Order No. 14071") that set from 5 February 2023 a price cap for Russian petroleum products at USD 45 per barrel of petroleum products traded at a discount to crude oil and at USD 100 per barrel of petroleum products traded at a premium to crude oil.

In addition, on 3 February 2023 the U.S. Department of the Treasury's Office of Foreign Assets Control published a determination pursuant to Executive Order No. 14071 that introduced the prohibition for U.S. persons to provide to Russian persons certain services related to the maritime transport of petroleum products of Russian origin, such as trading brokering, financing, shipping, insurance, flagging and customs brokering if the price of the petroleum products exceeds the above price cap.

On 19 May 2023 the U.S. Department of the Treasury's Office of Foreign Assets Control pursuant to the U.S. President's Executive Order of 15 April 2021 No. 14024 included in the list of blocked persons over 20 entities specialised in services and research for oil and gas and chemical entities of the Russian Federation, including LLC Gazprom VNIIGAZ and LLC Gazpromneft-NNGGF, on 20 July 2023 – LLC CHOO Gazpromneft okhrana, on 14 September 2023 – LLC Gazprom Nedra, on 2 November 2023 – LLC Gazpromneft CS and LLC Gazpromneft STC, on 23 February 2024 – JSC Gazprom Space Systems and LLC RusChemAlliance (joint arrangements), and on 12 June 2024 – LLC Gazprom invest.

U.S. sanctions apply to any entity, in the capital of which the persons from the sanctions list directly or indirectly, individually or in the aggregate, own 50 % or more equity interest.

The sanctions imposed by the EU, with amendments made on 15 March 2022 to EU Council Regulation No. 833/2014 of 31 July 2014 ("EU Council Regulation No. 833/2014"), prohibit all citizens of the EU member countries, as well as all legal persons, entities and bodies incorporated or established under the laws of an EU member country (both within the EU and abroad), as well as all legal persons, entities and bodies in connection with any economic activities carried out in whole or in part within the EU to:

25 Commitments and Contingencies (continued)

- 1) provide drilling, well testing, logging and completion services, supply specialised floating vessels necessary for deep water oil exploration and production, and (or) Arctic oil exploration and production, and shale oil projects in the Russian Federation, as well as provide direct or indirect financing, financial assistance, technical and brokerage services in relation to these activities;
- 2) acquire any new or extend any existing participation in any legal person, entity or body incorporated or constituted under the law of the Russian Federation or any other third country and operating in the energy sector in the Russian Federation;
- 3) grant or be part of any arrangement to grant any new loan or credit or otherwise provide financing (including equity capital) to any legal person, entity or body incorporated or constituted under the law of the Russian Federation or any other third country and operating in the energy sector in the Russian Federation or for the documented purpose of financing such a legal person, entity or body;
- 4) create any new joint venture with any legal person, entity or body incorporated or constituted under the law of the Russian Federation or any other third country and operating in the energy sector in the Russian Federation;
- 5) provide investment services related to the activities referred to points 1)-3) above.
- On 3 June 2022 the EU adopted another package of sanctions against the Russian Federation, including the following measures:
- a) The prohibition on the purchase, import or transfer of crude oil and petroleum products, as listed in Annex XXV to EU Council Regulation No. 833/2014, originating in, or being exported from, the Russian Federation, as well as the provision, directly or indirectly, of technical or financial assistance or other services related to that prohibition. That prohibition has some exemptions, including on import of oil and petroleum products from Annex XXV that are seaborne, originate in third countries and are exported through the Russian Federation, provided that the seller is non-Russian, and on import of crude oil which is delivered by pipelines from the Russian Federation, except for oil supplies through the northern section of the Druzhba oil pipeline to Germany and Poland, which are prohibited from 23 June 2022.
- b) It is prohibited to provide, directly or indirectly, technical assistance, brokering services, financing and financial assistance, related to the transport, including through ship-to-ship transfers, to third countries of crude oil or petroleum products as listed in Annex XXV which originate in, or which have been exported from the Russian Federation.
- On 18 December 2023 the EU Council extended the lists of goods from the Russian Federation (or of Russian origin) prohibited for import to the EU. The updated lists include, among other things, certain liquefied petroleum gases (in particular, liquefied propane and butane).
- On 6 October 2022 the EU Council approved another package of sanctions against the Russian Federation changing the earlier introduced prohibition on crude oil transport services, including by vessels, to third countries. Thus, the prohibition on transport and services related to transport of crude oil from 5 December 2022 and petroleum products from 5 February 2023 is applied if the price per barrel of transported crude oil or petroleum products exceeds the price set by a separate decision of the EU Council. In December 2022 and February 2023 the following price caps were set: for Russian oil at USD 60 per barrel, from 5 December 2022; for petroleum products traded at a discount to crude oil at USD 45 per barrel, for petroleum products traded at a premium to crude oil at USD 100 per barrel, from 5 February 2023. The prohibition is not applied to transport of crude oil and petroleum products originating outside the Russian Federation and only transiting through the Russian Federation, and not applied to crude oil supplied to Japan from the Sakhalin-2 project. In addition, the EU Council prohibited the provision of architectural and engineering services, legal advisory services and IT consultancy services.
- On 18 December 2023 the EU Council introduced new measures to more closely monitor compliance with the previously introduced price cap on the seaborne transportation of crude oil and petroleum products within the Russian oil supply chain. In particular, service providers that do not have access to the purchase price per barrel for such products must gather detailed information about the price of ancillary services provided by operators further down the supply chain of Russian crude oil or petroleum products. Such detailed price information should be made available to counterparties and competent authorities upon request in order to verify compliance with the price cap imposed by the EU.

25 Commitments and Contingencies (continued)

In addition, on 18 December 2023 a ban on all EU persons was imposed prohibiting the sale or transfer of ownership, directly or indirectly, of tankers for the transport of crude oil or petroleum products listed in Annex XXV to EU Council Regulation No. 833/2014, to Russian person or entity, organisation or institution or for use in Russia. Also on 24 June 2024, the EU Council extended the previously introduced crude oil price cap exemption for the supplies of crude oil mixed with condensate produced within the Sakhalin-2 project until 28 June 2025.

The EU sanctions prohibit from 16 January 2023 persons from the EU from holding any posts in the governing bodies of Russian majority state-owned entities, their Russian subsidiaries (with an interest of over 50 %) and any Russian entities acting on their behalf or at their direction.

On 22 December 2022 the EU Council decided to introduce a temporary mechanism to limit the gas price in excess of certain caps. The resolution entered into force from 1 February 2023, while the gas price limiting mechanism entered into force from 15 February 2023.

Under the EU sanctions it is prohibited from 27 March 2023 to allow nationals of the Russian Federation (and persons permanently residing in the Russian Federation) to hold any posts in the governing bodies of the owners or operators of critical infrastructures and critical entities of the EU.

From 25 February 2023 under the EU sanctions it is prohibited to provide gas storage capacities / facilities (except for liquefied natural gas storage capacities) to nationals and entities from the Russian Federation, as well as persons that are owned for more than 50 % by them and persons acting on their behalf or at their direction.

On 24 June 2024, the EU Council adopted a new (fourteenth) package of sanctions against Russia, which introduced new restrictions affecting the energy sector from 25 June 2024. In particular, the following restrictions were introduced:

- A ban on the transshipment of Russian liquefied natural gas (LNG) via EU ports for the purpose of its further re-export to third countries;
- A ban on the acquisition or increase of EU persons' interest in Russian LNG-related projects;
- A ban for all EU persons to provide, directly or indirectly, goods, technology or services to an entity or
 individual, organisation or institution based in Russia to complete LNG-related projects under
 construction. This ban also applies to the provision of financing and technical support for the supply of
 such goods, technology and services.

Furthermore, the new package of sanctions introduces a mechanism enabling EU persons to recover damages, including legal costs, incurred as part of litigation initiated by Russian persons in third countries for breach of obligations under contracts made with Russian persons, fulfilment of which was affected by the EU sanctions imposed. A similar mechanism is also introduced for the recovery of damages incurred by EU persons due to actions by Russian persons as a result of rulings in favour of such Russian persons under Decree of the President of the Russian Federation No. 302 dated 25 April 2023 On Temporary Management of Certain Property (or other similar Russian regulations), provided that such rulings are deemed unlawful under customary international law or a bilateral investment treaty between Russia and an EU member state.

The blocking EU sanctions apply to any person in which sanctioned entities, directly or indirectly, individually or in the aggregate, own 50 % or more equity interest.

A number of other countries have recently imposed sanctions on the Russian Federation. Those sanctions are generally similar to the U.S. and EU sanctions. At the same time, certain countries have imposed extended sanction restrictions.

Blocking sanctions against PJSC Gazprom were imposed by Canada (24 February 2022), Australia (13 April 2022) and New Zealand (7 June 2022). On 29 September 2022 Poland imposed blocking sanctions against LLC Gazprom export.

A number of foreign states imposed sanctions on Alexey Miller, the Chairman of the Management Committee of PJSC Gazprom, and individual members of the governing bodies of PJSC Gazprom, but those sanctions do not apply to PJSC Gazprom.

The Group is currently assessing an influence of adopted economic measures on its financial position and financial performance.

25 Commitments and Contingencies (continued)

Financial Guarantee Contracts

In accordance with the agreements, the Group provided financial guarantees in the total amount of RUB 599,509 million and RUB 408,281 million as of 30 June 2024 and 31 December 2023, respectively.

The total amount of financial guarantee contracts issued to the Group's associates and joint ventures as of 30 June 2024 and 31 December 2023 was RUB 521,363 million and RUB 326,867 million, respectively.

For the six months ended 30 June 2024 and in 2023 the counterparties fulfilled their contractual obligations.

Financial guarantee contracts include financial guarantees denominated in Euros of EUR 290 million and EUR 288 million as of 30 June 2024 and 31 December 2023, respectively.

Capital Commitments

The total investment utilisation in accordance with the investment programme of the Group for 2024 (for gas, oil, electricity, heat generating and other assets) is RUB 2,639,472 million.

26 Events After the Reporting Period

Borrowings

In July-August 2024 the Group issued Russian bonds in the amount of RUB 30,000 million.

Taxation

In July 2024, amendments were made to the Tax Code of the Russian Federation, which included an increase in the income tax rate from 20 % to 25 %, effective from 1 January 2025. If the income tax rate of 25 % was applied to temporary differences that would be realised after 1 January 2025, the net deferred income tax liability as of 30 June 2024 would increase by RUB 206,032 million.
